INNOVATIONS BEYOND IMAGINATIONS

WATER SLIDE

ANKAM WATER PARK EQUIPMENT

is a young and dynamic company, formerly known as Ankam Corporation, incorporated in 2012. With over 20 years of collective experience in the water park ride manufacturing industry, we specialize in designing customized solutions tailored to our clients' unique requirements and space constraints. We're not just builders — we're experience creators. Our products combine innovation, safety, and value, delivering thrilling, high-quality attractions that leave a lasting impression. Every ride we manufacture meets international safety standards, including EN and ASTM, ensuring world-class reliability, durability, and performance. At Ankam, we're committed to exceeding expectations — transforming ideas into unforgettable aquatic adventures.

Ganesh Ankam
Managing Director

WE BELIEVE

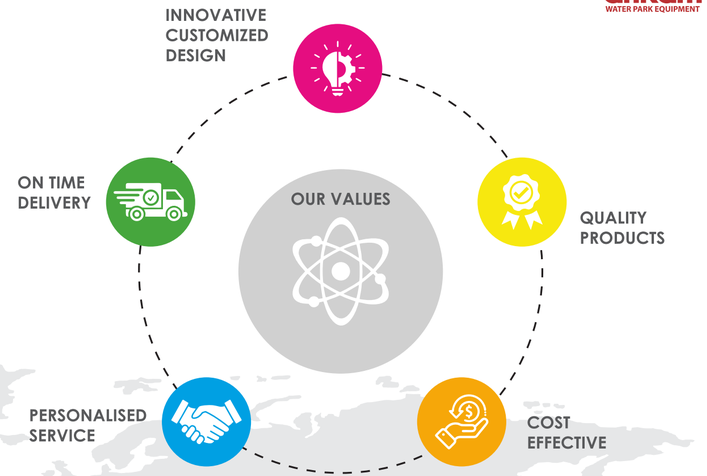

Safety comes first.
Focus on the User, and success will follow.
Customer - Centric values drive everything we do.
Great Isn't good enough - we push for excellence.

MISSION

"To set the benchmark in delivering world-class water park equipment."

WARRANTY

All our products carry a Two-year warranty against manufacturing defects.

WATER SLIDE SYSTEM

While combined slides already exist, Quadraventure takes it a step further by offering multiple water-slide choices to the rider. To top it off, the player enjoys the luxury of hassle-free and, most importantly, hazard-free travel throughout the experience. The highlights of this system include the use of patented combined water-slide technology, the ability to make on-the-spot slide choices, and an integrated water slide transportation system. The term 'Quadra' comes from the design — a mega water slide arranged in four quadrants. Riders are encouraged to choose one of four paths, each offering a unique thrill level. The journey begins at one of two start points, where players board a two-seater float. A horizontal conveyor system carries them to a connecting elevator, which lifts them to the top. Another horizontal conveyor then transports them to their selected slide entrance. This marks the end of the uphill journey and the start of an exciting downhill adventure. Each ride concludes in a lazy river that surrounds the entire Quadraventure structure.

Our intertwined, two-seater slides promote both companionship and competition — you bond with new friends, enjoy the ride together, or challenge each other to a race down the slides.

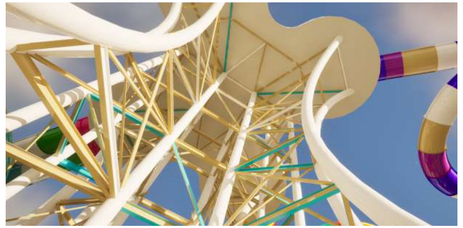

Quadra Tower

The Quadra Tower is the powerhouse of the Quadra water slide system — a patented and revolutionary structure unlike anything seen before. Built entirely from structural steel, this tower redefines the water park experience by eliminating the stress and effort usually required before a ride. No more carrying rafts, walking long distances, or climbing stairs. Simply sit back, relax, and enjoy a smooth, comfortable journey to the top. Even better, you can choose your adventure mid-way, selecting your preferred slide while on your way up — all without lifting a finger.

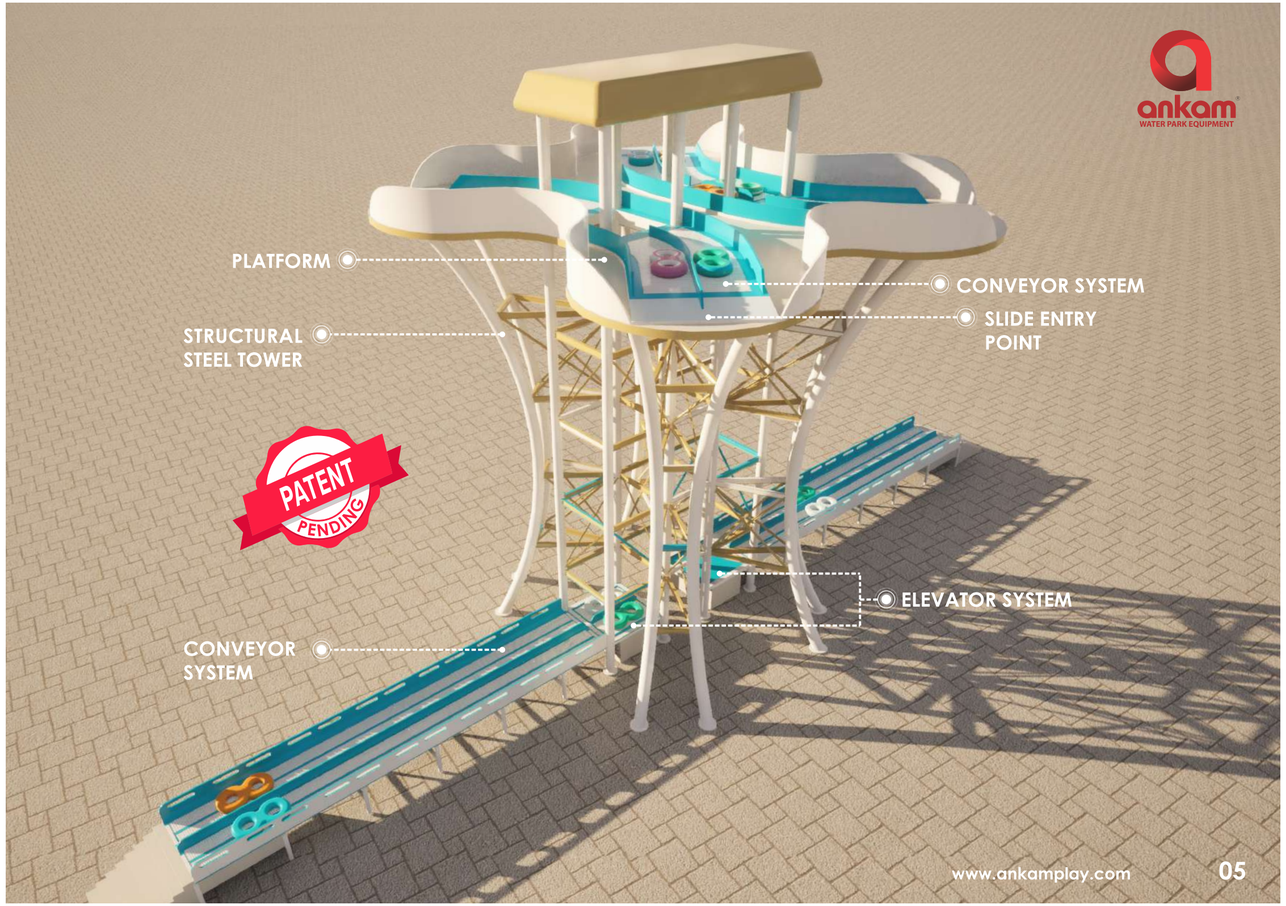

How does it work? The system integrates advanced control technology, sensors, actuators, and conveyor mechanisms to deliver seamless operation. As a result, the number of operational staff needed is significantly reduced. Most importantly, the Quadra Tower brings a futuristic, sci-fi visual appeal and grandeur to any amusement or water park, setting a bold new standard in design and functionality.

Aeropod

Aeropod is your gateway to an out-of-this-world experience due to its unique and intricately engineered pod-like form and design. It takes the thrill-seeker on an out-of-this-world adventure with mind-bending twists, turns, and surprise drops. Experience one or more aero pods on each ride, followed by the merry-go-round fun of the streamlined loops nestled between the pods a mesmerizing blend of adrenaline-pumping thrills and smooth, circular glides.

Petal Coaster

Petal Coaster provides alternating open-and-closed twists and turns, simulating the life of a dwarf on gigantic petals. Experience the lightness of sailing upon a petal's arcuate, silky-smooth surface. Furthermore, glide over multiple petals on each ride as you seamlessly transition between sinuous float slide sections and serene glides, partaking in an extraordinary adventure that blends thrill and elegance in perfect harmony.

Blender Slide

Blender Slide is an exhilarating and candy-colored thrill ride—resembling a giant swirl of candy canes, doesn't it? On this slide, you'll experience gradually intensifying centrifugal forces that pin you to the slide wall (pun intended!) as you spiral downward. The anticipation and excitement build with every loop, making each turn more thrilling than the last.

Dual Oscillator

Dual Oscillator pulls you into a thrilling helix that culminates in a pendulum-like oscillating section—swaying you gently like a giant, calming wave and offering a rare moment of serenity. But don't get too comfortable, thrill-seekers—Dual Oscillator isn't done with you yet! Its unconventional twist? Just when you think the ride is over after conquering its closed turns, you're launched back into action on a curved float slide, zipping through one final round of excitement. It's a double dose of fun that'll leave you wanting more.

PATENT PENDING

Crab Slide

Crab Slide is a one-of-a-kind attraction, fully themed to look like a giant, lifelike crab. Riders launch through a high-speed tunnel float slide, building up G-forces and adrenaline before bursting into the crab's belly—where the real fun begins. Inside, they swirl around in thrilling loops two to three times, depending on their momentum, before making a dramatic exit through one of the crab's massive claws, splashing straight into the pool. It's a wild, crab-tivating adventure like no other!

Pearl Slide

Pearl features twin slides that converge into its glowing core—allowing two riders to slide simultaneously on separate paths. The journey begins with a tunnel float slide, taking riders through a series of thrilling drops and turns, building up G-forces and reaching top speeds before plunging into the heart of the Pearl. Inside the core, riders oscillate dramatically, climbing high along the walls and experiencing multiple G-forces before making a dynamic exit through two separate chutes.

Shell Slide

Giant Shell is a fun-filled ride that takes you through winding twists before dropping you into a giant shell-shaped chamber. Inside, you swing from side to side, reaching thrilling heights! Designed to look just like a real sea shell, with special lights and ocean sounds, it feels like you're riding the waves inside nature's own masterpiece.

Naga Slide

The Naga is a jaw-dropping family adventure that begins as you dive straight into the open mouth of a giant cobra! Hold on tight as the slide coils you through a wild path of thrilling twists and rapid turns. With every loop, you'll feel a unique pulling sensation—like a sudden jerk—thanks to the shifting center of gravity, amplifying the excitement. Fully themed to resemble a fierce, lifelike cobra, The Naga isn't just a ride—it's an unforgettable encounter with the king of snakes!
