INNOVATIVE SLIDES

Ankam Play Systems

is only company in

India with Patented slides.

NAGA SLIDE

CRAB SLIDE

SHELL SLIDE

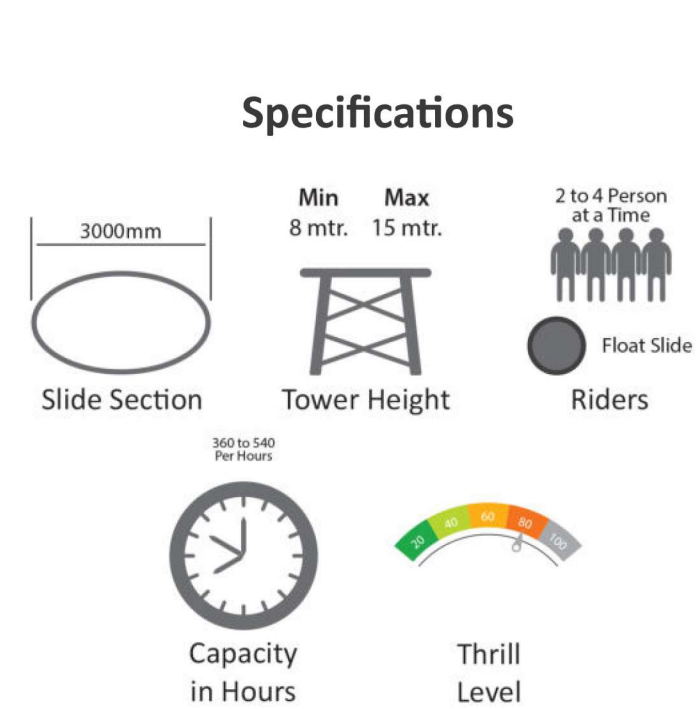

PEARL SLIDE

NAGA SLIDE

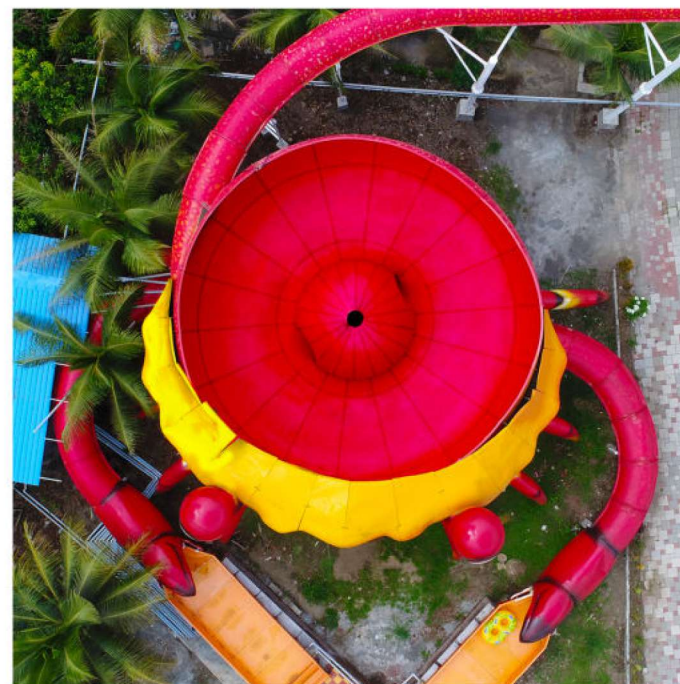

The Naga is a Family Slide Where sliders will enter the slide from the mouth of the Naga. Naga Slide will take sliders through the series of Turns and Twists. Sliders would experience Multiple G Forces through out the slide and an Unique Pulling effect they will experience like a jerk while entering each new loop due to change center of gravity. The Naga is fully Themed to look like real Cobra Snake.

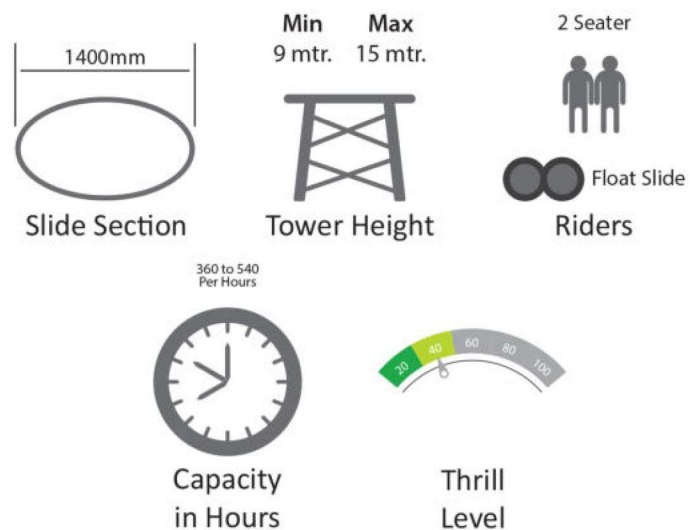

PATENT REF 269484 | COPY RIGHT REF 1252/2015CO/L

CRAB SLIDE

Crab slide is completely themetised to look like a real crab. Slides start with tunnel float slide where they will reach maximum G forces and attain maximum speed before entering stomach of the crab. The transition point where sliders will experience utmost thrill & Fun. Sliders will take two to three rounds inside the stomach depending upon the kinetic energy developed while entering the stomach then they will exit from one of the hands (clots) of crab in the pool.

Specifications

PATENT REF 269483 | COPY RIGHT REF 1253/2015CO/L

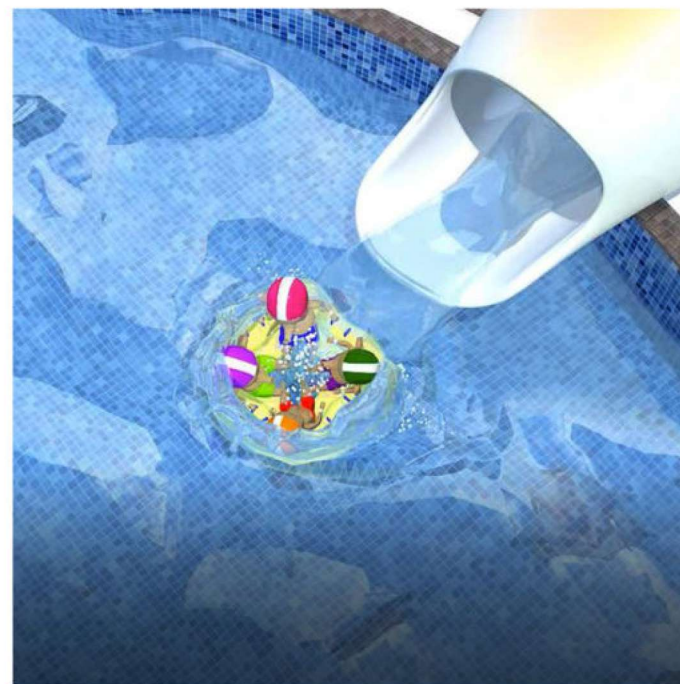

SHELL SLIDE

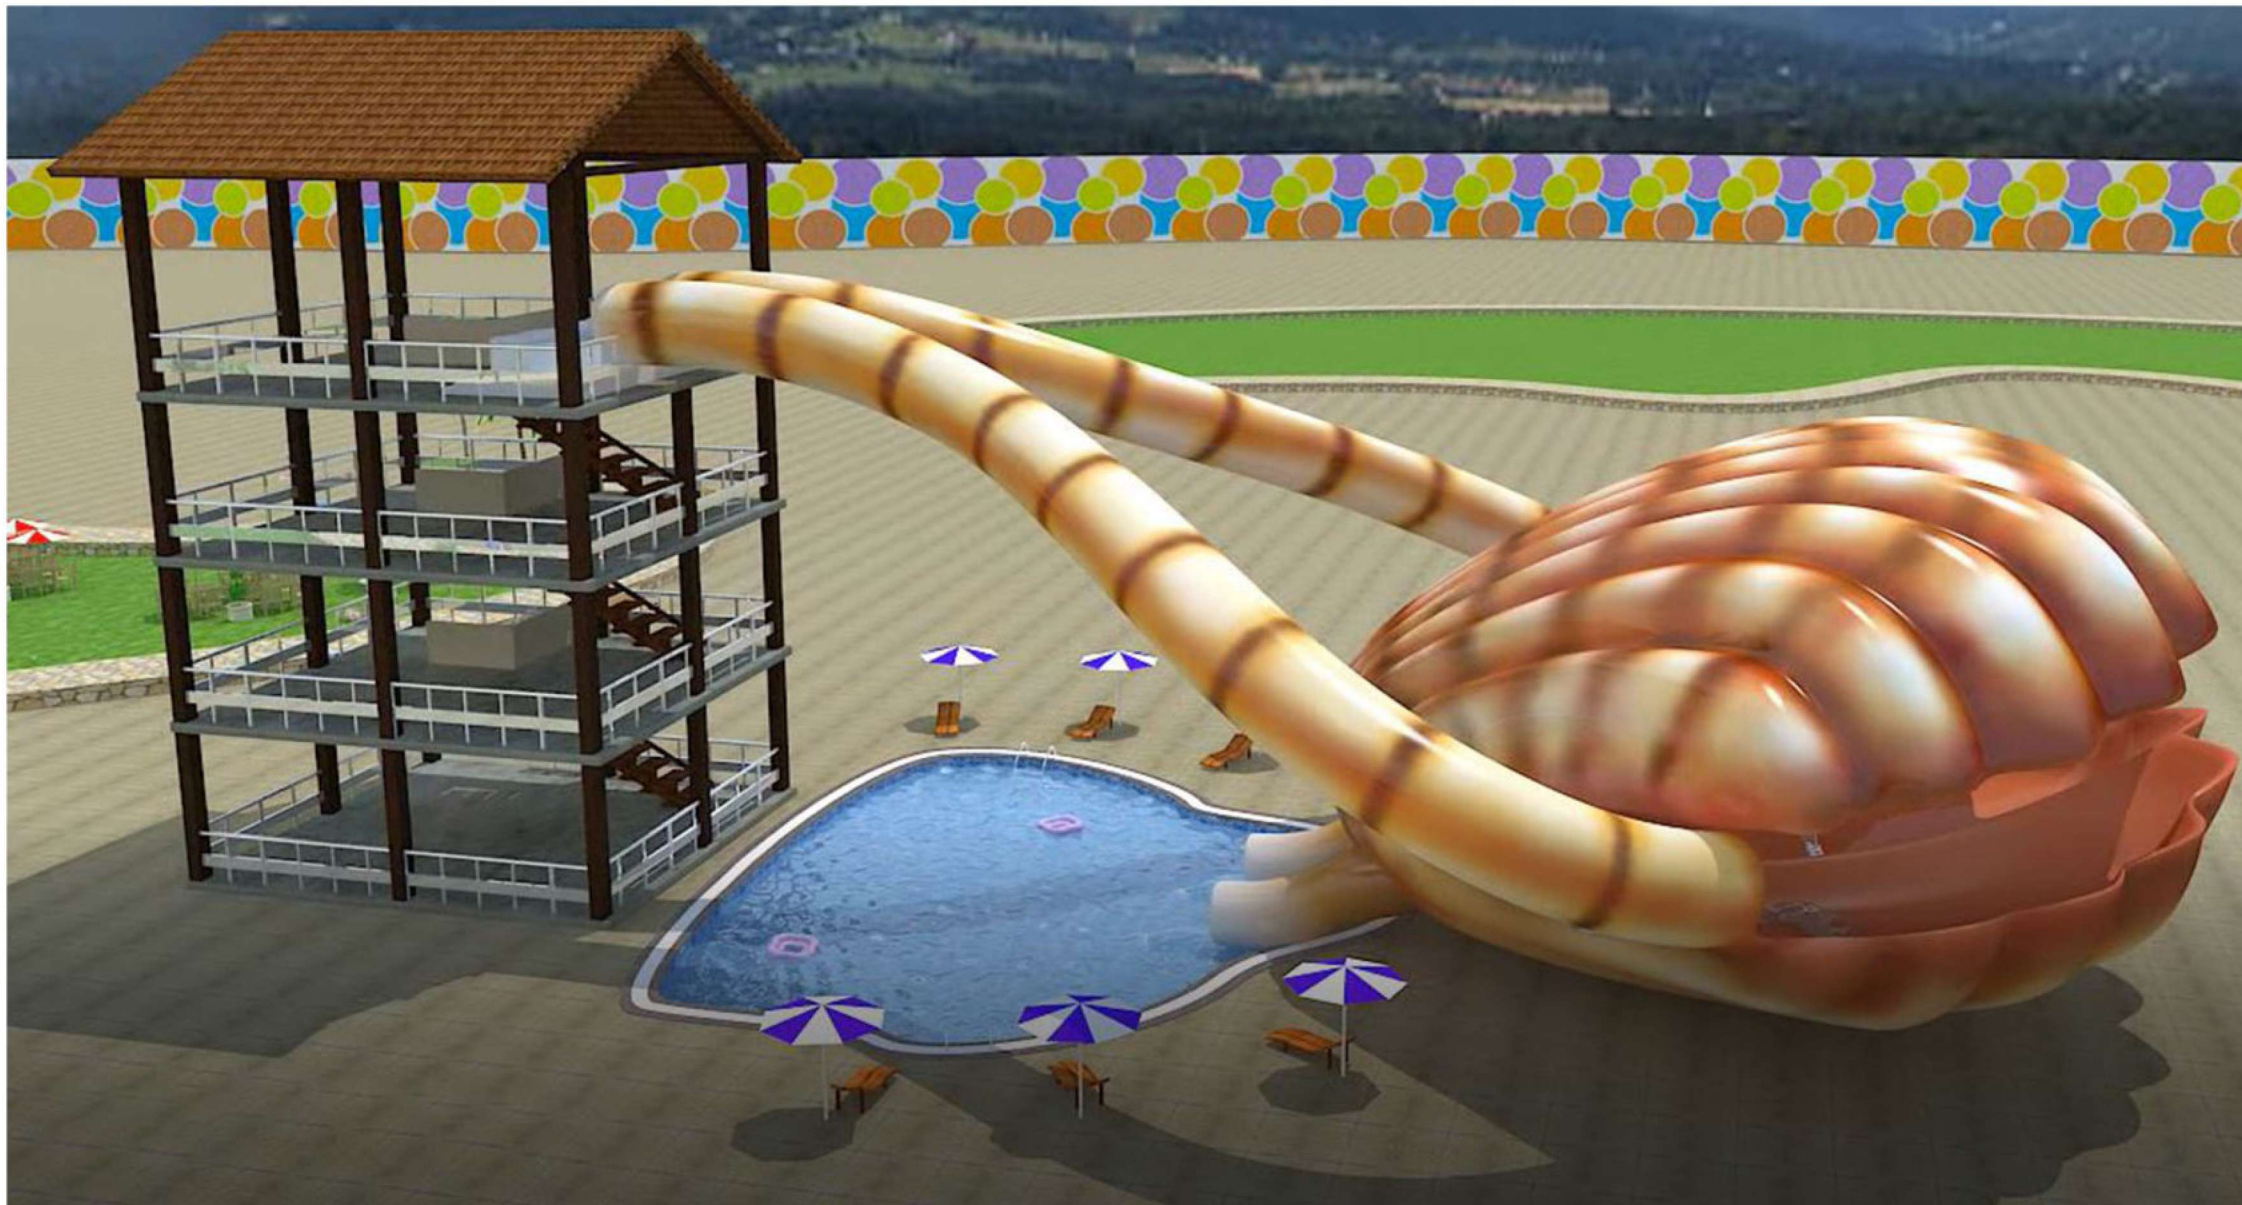

Giant Shell takes sliders through course of turns and twists before plunges them into the shell, creating number off oscillations through walls of shells with increased speed. Sliders reach maximum wall height possible. Structure is indigenously designed to keep the shell look in tact Natural shape of shell, Sound and Lightining effect makes sliders feel of being in Sea Shell.

PEARL SLIDE

Pearl boasts twin slides coming to its core. i.e. Sliders can slide from two different slides at same time. Sliders start from Tunnel Float slide and slide through drops and turns generating G force and attaining maximum speed before plunging into the core of the Pearl. Sliders would oscillate in the core reaching maximum wall heights and experience multiple G forces before exiting from two different exit.
